# Saxophone mouthpieces Tenor

### The new jazz standard

#### For Tenor Saxophone:

The tenor mouthpiece is made with the legendary "Bell Metal" brass, then plated with 24-karat gold. Available in 3 chambers:

- **S** Small chamber: The original V16 model relabeled with the Small indication. A centered sound with a lot of projection.
- Medium chamber: Inspired by the famous mouthpieces from the 50's/60's. A round and deep sound.
- **Large chamber**: In the tradition of the 40's. The great vintage sound.

				CODE		COMMENTS				
		ı	<u>S</u>	W	(L)					
Tenor	<b>T5</b>				SM821GL	Uniquely available with the large chamber, recommended for use with the ZZ reeds strengths 21/2, 3.				
	T6		SM822GS	SM822GM	SM822GL	A very versatile mouthpiece with a medium tip opening. Recommended for use with the JAVA and ZZ reeds # 3.				
	N H V		SM823GS	SM823GM	SM823GL	An excellent balance between opening and facing length: this is the reference model for the S and M chambers.				
	<b>T8</b>		SM824GS	SM824GM		Particularly recommended for use with the JAVA "Filed - Red Cut" and V16 reeds # 3.				
	T9		SM825GS	SM825GM		The most open mouthpiece in the line, a perfect balance with the JAVA "Filed - Red Cut" reeds strength 2½.				

Most particularly recommended mouthpieces.

Technical Specifications page 2

These mouthpieces are also available in Kit with Optimum ligature and plastic cap. Please add "**KO**" at the end of the item code (T5 Kit: SM821GL**KO**).
